PROFESSIONAL MARINA MANAGEMENT SERVICES - CONSULTING

Marina Management Services is a focused team of highly accomplished professionals. We're driven to position marinas and boatyards competitively to enhance their profitability and making memories of services

MANAGEMENT

1. Oversight management program
2. 3rd party management

OVERSIGHT MANAGEMENT PROGRAM

At D3MARINE service oversight management program provides an independent perspective on a marina and insures owners and lenders that their interests are being protected and improved. We provide the owner with ongoing physical, financial, and marketing recommendations, and continually strive to improve the value of the property. We achieve these objectives through monthly visits to the property and consultations with the owner and staff to review the implementation of prior recommendations. We provide advice on maintenance and capital expenditure issues to assure that the property will sustain and improve its income potential.

3rd PARTY MANAGEMENT

With D3MARINE 3rd Party management service, D3 takes control of the marina's day to day operations while providing the same consultation as the oversight management program. This service is geared toward absentee ownership and owners not familiar with the intricacies of the marina asset class. With the full management program, we are able to offer our client's our marina management system and financial controls with flexible reporting formats to allow the client to design a reporting package that fits their needs. Please contact us to request a list of clients that D3 marine has had a management relationship.
